4. At a National Championship, the following guidelines apply: the split should be no greater than five between placings, with a maximum split of 12 in total. The Hormel Slide shows the degree of penalty (splits) as related to the degree of difference between placings and the Competitor is scored accordingly.
5. The ring steward should use the exhibit placing card to record the class selected and the placing of exhibits for each competitor to ensure exhibits are correctly sashed before the competitor commences the oral section.

ORAL SECTION GUIDELINES

All Competitors will take part in the Oral Judging and speak on one class of their choosing. The Championship Judges will use the card/ sheet marked 'Oral Class'. Upon entering the Judging Ring each Competitor will give instructions to the Ring Steward to place the ribbons on the animals in their placement order. Ribbon colour order being Blue – 1st, Red – 2nd, White – 3rd, Yellow - 4th.

The ring steward will place the exhibits and the ribbons on them according to record on the exhibit placing for oral section. The competitor will be asked to confirm this is correct prior to delivering their oral.

If there is a disagreement between the order the competitor recalls to the order submitted on the oral judging score.

Competitors are allowed two (2) minutes to clearly express their oral reasoning to the Championship Judge and spectators the reasons they placed the Exhibits in a particular order. **Penalty points apply** – One (1) point should be deducted for every ten (10) seconds or part thereof over the allotted two (2) minutes.

Competitors should have their reasons organised and emphasise the most important points they wish to make. When giving the reasons, the main objective is to inform the Championship Judges that the Competitor hasseen and compared each animal in the Class. It is important to make comparisons between animals rather than describe individual animals. Commence the Oral reasoning as follows: -

'I placed this Class four, one, three, two (4, 1, 3, 2)'.

Give the most important reasons first and remember to use comparative terms. Where necessary the Competitor can then follow with:

'In the top pair I placed four (4) ahead of one (1) because four) 4(. ..... '.

This demonstrates to the Championship Judge the accuracy of any priorities. Mention any major faults, if present.

Continue in similar manner by comparing the middle pair and finally the bottom pair.

Remember; Speak Clearly; Be Concise; Show conviction in the placings.

Introduction (important statements first, small points at the end) logical order (comparison of pairs) and conclusion.

NOTES FOR CHAMPIONSHIP JUDGES

In the selection of a Class of birds for the National Championship, the aim should be to get a group of four (4) birds upon whose placing experienced Judges, after careful inspection and consideration, would be likely to agree. As a general rule, these should be four birds.

A suitable group of birds might be made up of a fairly clear leader, a fairly obvious 'tail', and two others that present a more difficult choice. They will be judged against the standard of what is considered a good poultry type, rather than one that pays strict attention to specific breed points. For a State or National Championship it is expected that the gap between individual exhibits could be closer and this would also be reflected in the points allocated to the splits between placing

Where birds of widely different ages have to be used, the ages should be given and it should be made clear to the Competitors that each bird is to be judged on its present showing and not on which it has done or might do. It is probably better if birds of relatively similar age are selected for the National Championship.

Prior to the National Championship the Championship Judge will select the birds to be judged – if required this can be done a day or two before the National Championship. On the day of the National Championship the Championship Judge will decide on the correct placing of the birds in each Judging Ring and note on the Master Card.

At no time during the National Championship should the Championship Judge talk with a Competitor unless directed to do so by the Ring Steward.

In filling out the Master Cards, the Championship Judge is required to note a numerical difference between birds as directed in instructions for use of the Computer Scoring Program and Hormel Slide. Both the Computer Scoring Program and Hormel Slide show the degree of penalty as related to the degree of difference between bird placings and the Competitor is scored accordingly.

A Competitor is in as good a position as is the Championship Judge to observe both the good and bad points or faults of the birds. But even if the competitor does so, they may draw different conclusions because the competitor does not give those good and bad points the same importance as does the Championship Judge. This difference of opinion will be reflected in the Competitor's low score for placing, and they should not be further penalised in the Oral Test if their observation has been accurate and the Championship Judge considers the reasoning to be logical.

Each Competitor in the Oral Class is allowed one (1) minute to line up the birds in their order of merit and two (2) minutes to state his/ her reasoning for the placings. If the competitor finishes in less than this time, but has said all that was needed to support their case, they should not be penalised. Stewards will apply penalties as required if the competitor exceeds two minutes speaking.

At the conclusion of the National Championship the Championship Judge is asked to give their own reasons for the placing of the birds. If possible, with the birds present. Comment on the various oral and ringcraft styles of the Competitors may also be made.

As far as possible to maintain Competitor and spectator interest in the National Championship, it is important that it is confined to a time limit. Championship Judges are asked to confine their comments to the times suggested in the 'Competition Procedure' for all Poultry Judging Competitions.

EQUIPMENT AND ATTIRE GUIDELINES

Competitors must be neatly and suitably attired. Attire should be selected to allow the competitor to participate in judging. It is essential to consider workplace health and safety when selecting attire. Enclosed shoes are strongly encouraged in all competitions along with the use of hats when sun protection is necessary.Caps are discouraged along with excessive jewellery.

Competitors will not be penalised for wearing the uniform if provided by their state.

Shorts, chewing gum and poor presentation is unacceptable and will be marked down accordingly. The use of unauthorised electronic devices is strictly prohibited and will be dealt with in accordance with Agricultural Shows Australia policy.

During visual judging, competitors may choose to remove their blazer; however, it is encouraged that a blazer be worn during the oral section of the competition. Competitors will be provided with a dust coat for visual judging if required by the competition.
